The Kitchens Framework

Cirrus Consortium
Kitchens Framework

The Cirrus Consortium Kitchen Supply Framework 2 builds on the success of our previous kitchens framework and offers members quick, flexible and compliant access to a range of leading kitchen manufacturers and suppliers.

While the framework is predominantly for the supply of standard kitchen materials and accessories, we've also incorporated installation services, modular kitchens, adapted kitchens and a design service.

The framework supports the service delivery models that may be required by our members including delivery direct to site or nearby collection point, collections from a sales outlet network and replenishment of client stores facilities.

About Us

Cirrus Purchasing Ltd is a specialist procurement consultancy and public sector framework provider supporting the social housing, public and private sectors.

The Cirrus Consortium is a group of contracting authorities across England, Scotland and Wales who have joined together to establish frameworks for a range of products and services that comply with the Public Contracts Regulations (PCR).

Cirrus Purchasing manage the frameworks on behalf of the Consortium, every solution we set up is informed by our members who have free input into the arrangements.

Management Fees

There are no joining fees or ongoing costs payable by members for the use of our frameworks. Framework suppliers are required to make payment to Cirrus Purchasing of 0.5% of invoiced turnover from call-off contracts issued via the kitchens framework to cover framework management costs.

To the best of our knowledge this is the lowest fee charged to suppliers on a kitchen supply framework nationally.

Environmental Sustainability

Cirrus Purchasing care about the environment and would like to help our consortium members reach net carbon zero by 2050. We've remained a completely carbon negative company ourselves for 11 consecutive years, and as an SME organisation have so far planted almost 200 trees, supported a hydro power project in India and contributed to the Mersey Forest Foundation.

That's why we wanted to work with framework suppliers who are doing their bit too. All suppliers on the kitchens framework were asked at tender about their approach to improving environmental sustainability, including how they can work with our members to minimise the environmental impact of their call-off contracts. This information is available to our consortium members on request when conducting a call-off contract under the framework.

Social Value

The framework takes a flexible approach to social value to allow each member to meet their individual social aims and objectives. To meet your own social value goals you can:

- ▶ Use one of the off-the-shelf readymade social value framework packages available, or
- ▶ Design your own bespoke social value requirements, tailored to suit your needs

Cirrus Purchasing can support you through this process if required.

How to Award

DIRECT AWARD OR **MINI COMPETITION**

You can award your contract via direct award or by re-opening competition through the use of a mini-competition. You can either handle the mini-competition yourself, or Cirrus Purchasing can manage the process on your behalf.

Register your details and notify us that you are trading via the Cirrus Consortium Kitchen Materials Framework here: www.cirruspurchasing.co.uk/Regform4

Completing this form automatically gives you free membership to the Cirrus Consortium as well as an audit trail to prove you trade under a PCR compliant framework. You do not need to sign an access agreement with Cirrus Purchasing or the Cirrus Consortium.

Cirrus Consortium Framework Support Services

Benchmarking

Invoice checks

Contract management

Tender management

Options appraisals

Social value design services

We offer a number of additional support services through our frameworks upon request – because one size doesn't fit all, we **tailor** our solutions to you.
